Sustainable Management & Technology (TUM) and Economics (Istanbul University) read in parallel, with two years of ESG and consulting work behind them. I design and ship software with AI agents: open-source instruments for carbon accounting and financial analysis, and LLM products whose outputs are grounded in source data and verified by tests.

EXPERIENCE

BIGM (bigm.live), Munich (Part-time) 07/2026 – Present
Marketing Manager
- Manage social media presence and brand identity for BIGM, a B2B AI sales-automation platform.

SILREAL GmbH, Berlin (Remote) 10/2025
Consultant Intern
- Formulated a market-entry report and client-ready think-cell presentations guiding a healthcare and consumer-goods client's expansion into China, working with senior consultants under tight timelines.

Microbify GmbH, Straubing 04/2025 – 09/2025
Market Expansion Consultant (Project Study)
- Achieved a perfect **1.0 grade** (top of the German scale) by mapping 3 target B2B segments and delivering a market-entry strategy with KPIs and risk assessments for executive decision-makers.

HTE Industrial Control Systems, Istanbul 07/2024 – 08/2024
Sustainability Consultant Intern
- Assessed and helped develop the company's sustainability strategy, separating the reporting obligations that applied to a controls manufacturer from those that did not.

Tuğçelik Alüminyum, Istanbul 03/2024 – 04/2024
Sustainability Intern
- Collected and calculated **Scope 1-2 CO_2** emissions data across production sites; supported ESG reporting and on-site environmental compliance inspections.

PROJECTS

AI Products, built with Claude Code 2026 – Present
Designed and reviewed by me, built with Claude Code agents; every release passes its own tests
- **chess-glasses**: a chess coach in Ray-Ban Meta glasses; the glasses video-call a Mac, Claude reads the board through the camera, and Stockfish's best move is spoken into the wearer's ear; open source.
- **Favent**: after an event, each guest finds every photo they are in from three pictures of their face, measured on their own device and never uploaded; **36,489 faces searched in under 5 ms on a Mac.**
- **Sovela**: an iPhone and Apple Watch app that pauses your music and dims the lights when you fall asleep; in development; **76 tests.**
- **fixtern**: turns a client's raw files and a short brief into the decks, memos and spreadsheets a consultant would deliver; every figure shows its source rows, and AI answers that miss the calculation are rejected; **1,566 tests, 14,263 evaluated cases, zero errors.**
- **Stamphall**: a checkpoint between a company's AI assistants and its systems; two independent engines check every requested action against the company's rules and log why; **373 automated tests.**
- **Oculane**: watches a game's coin and reward economy, catches cheating, and proposes small fixes that go live only once a person approves; **359 tests.**

keremozdemir.de: Open-Source ESG, Finance and AI Tools 2026 – Present
- Built **5 browser-based instruments** (CBAM, embedded emissions, reduction pathways, provenance, DCF, market sizing), **9 finished tools with 466 hand-worked tests** and **8 case studies** in three languages, and **20 open-source projects on GitHub** for EU sustainability rules, AI-assistant safety and analysis.

CoLaunch | colaunch.app, Istanbul 02/2026 – Present
Co-Founder
- Co-founded a platform bridging young talent, early-stage ventures and investors; built its brand identity, positioning and launch content.
- Placed **3rd at the Boğaziçi Enterprise** Entrepreneurship Competition against teams from top Turkish universities; competed at the **national level** among Turkey's top student entrepreneurship teams (JA Startup) and reached the **semi-final** at YTU Entrepreneurship.

Circular-Economy Strategy: Kaeser Kompressoren 10/2025 – 02/2026
TUM Group Project (team of 5)
- Designed a take-back system and a product-as-a-service model; owned the **Scope 3** method and the **ESPR / Digital Product Passport** compliance roadmap.

EDUCATION

Technische Universität München (TUM) 2024 – 2027
Bachelor of Science, Sustainable Management & Technology

Istanbul University 2025 – 2029
Bachelor of Science, Economics (Remote)

Yeditepe University, Istanbul 2023 – 2024
Bachelor of Science, Management Information Systems (transferred to TUM)

SKILLS

AI & Agents: Building software with AI agents in Claude Code (multi-agent workflows, custom skills, hooks) | MCP servers | Human approval in automated decisions | LLM evaluation | AI search visibility (Google AI Overviews, Perplexity) | Local models (Ollama, Qwen3)

Sustainability & ESG: ESG analysis & reporting | Life-Cycle Assessment (LCA) | Carbon accounting (Scope 1-3) | CSRD / ESPR & Digital Product Passport | CBAM | Circular-economy strategy

Analytics & Strategy: Financial modelling | Market research & sizing | Data analysis | Decomposition analysis | KPI & risk assessment

Tools: PowerPoint & think-cell (advanced) | Excel (financial modelling, data analysis) | Python (packaged, typed, tested in CI) | JavaScript & SVG | Git & GitHub Actions | Java (intermediate)

Languages: Turkish (Native) | English (C1, IELTS) | German (A2) **Work permit:** Eligible to work in Germany (valid student residence permit)

CERTIFICATIONS & VOLUNTEERING

- McKinsey Forward Program (2026) | BCG Digital Transformation Job Simulation, Forage (2026) | Management Consulting, Emory University (2025) | Sustainability Consulting, UIUC (2025)
- IELTS Academic, CEFR C1 (2024) | Google Project Management (2024) | Google AI Essentials (2024)
- UN Major Group for Children and Youth (UNMGCY), Chemicals & Waste Youth Platform member (11/2025 – Present) | Enactus Straubing e.V., Innovation Team (11/2024 – 07/2026) and Finance Auditor (07/2025 – 07/2026) | FC Bayern München e.V., Member
- **Interests:** Financial markets | Basketball | Padel | Running | Mixology
